Important Notes:

1. Patients consult and follow up codes must be authorized. If any of the additional CPT codes are denied or not covered benefits, approve the referral with modifications and clear the account
 - a. Make sure to document a referral note identifying which codes were not authorized and zero out CPT codes that were not authorized on the DX/PX page.
2. **Immunotherapy:**
 - a. Allergy testing is generally ordered for more than one visit. Each immunotherapy injection requested will require a nurse follow up visit to be authorized along with it. Make sure when you are sending the packet to the payor to include the units requested on the request for authorization and fax coversheet.
Example: 1 a week for 4 weeks, procure the auth for 4 follow-up visits plus 4 units of injection codes.
 - b. Approve the correct units in LLEAP.
 - c. Ok to approve with modifications when 99211-99215 are not approved.
